Our Story

The original Kilner® Jar, first invented by John Kilner and Co. in 1842, in England, is as much-loved and successful now as it was over 178 years ago. Its long-lasting popularity is owed to its unique pressure seal, iconic design and overall quality. Put simply, households all over the world trust it to successfully preserve and pickle their fruit and vegetables. In the 1900s, Kilner® presented its innovation as 'the original and the best, all other brands are substitutes', a claim which remains as relevant today, and is a testament to its impressive heritage.

A surge in popularity for preserving home-grown fruit and vegetables, and storing food in glass rather than plastic for its health benefits, has catapulted the Kilner® Jar into the limelight in recent times. Not only is the Kilner® Jar essential for the kitchen, but it has become a statement of style around the home.

From New York to Tokyo, Paris to Oslo, consumers around the world love using Kilner®. As a result Kilner® Jars can be found in world-famous department stores and small independent shops around the globe.

Keep checking our social media channels and Kilner® website for lots of inspiring activities, from mouth watering recipes to collaborations with bloggers and other influencers.

KIDS JARS

Kilner® Kids Jars are ideal for storing homemade baby food. Making homemade healthy purées for babies enables you to control the contents as well as being a cost effective way of batch cooking.

This unique range is a sustainable alternative to using plastic. Glass is the perfect material for storing food as it does not stain, absorb odours or harbour flavours.

Kilner® Kids

This new category for Kilner® provides the ideal jars for storing healthy home-made baby foods. Available in two sizes of 110ml and 190ml, these jars are freezer safe and suitable for microwave warming providing the contents are fully defrosted. The easy, push-on silicone lids are airtight and leak-proof, making them perfect for busy parents on-the-go. The sets include three different colour lids and adhesive labels to document the use by date.

FRESH STORAGE

The Kilner® Fresh Storage range is a one-stop storage solution. Freshness is key when storing food, and this unique clip top glass storage makes it simple. Made from durable, heat-resistant borosilicate glass, the range is freezer, oven and microwave safe. Using glass containers versus plastic holds a number of advantages. Glass offers a more practical, healthy material for use with foodstuffs and works in conjunction with the pledge to use less plastic in our everyday lives.

Fresh Storage

Freshness is key when storing food and this unique glass storage solution makes it simple. Made from durable borosilicate glass, the range is freezer, oven and microwave safe (bases only). This unique stackable food storage collection is a sustainable alternative to plastic that can be used throughout the cooking process, from conception to consumption. Glass is the perfect material for storing food; it does not stain, absorb odours or harbour flavours and is easy to clean. Perfect for batch cooking and reducing food waste.

CREATE AND MAKE

The Kilner® Create and Make range includes a number of accessories to create homemade food and drinks, from fresh sauces and coffee to homemade butter. Innovative products address modern lifestyles such as 'eating-on-the-go'.

All In One Food To Go Set

The Kilner® All In One Food To Go Set is an innovative way to store, carry and consume cold and hot foods directly from the jar. The 0.5 Litre Wide Mouth Kilner® Jar makes it easy to eat out of and the accompanying spork means it is a complete food-on-the-go set.

Snacks and Cold Foods

Ideal for making and storing homemade healthy snacks and lunches on-the-go.

Innovative Silicone Stopper

The stopper creates a funnel for pouring hot water directly onto noodles etc.

During microwave use, the stopper allows steam to be released and prevents spillages.

Silicone Garnish Pot

The pot separates sauces, dressings or dips from the dry ingredients, keeping your food crisp and fresh.

Silicone Base

The silicone base absorbs heat during microwaving.

The hand grip holds the spork and protects hands from hot contents whilst consuming.

Set of 2 Fermentation Jar Set

The Kilner® Fermentation Jar Set provides the easy way to create smaller batches of your own delicious fermented foods packed with vitamins, minerals and probiotic cultures.

The silicone valve in the Kilner® 1 Litre Preserve Jar Lid will release the gas that builds up inside the jar during the fermentation process. However, the atmospheric air will not enter the jar, which usually causes food to spoil.

The glass weights sit on top of the vegetables to ensure that they are kept under the brine solution. Perfect for creating live cultures of sauerkraut, kimchi, pickles and much more.

Creating your own fermented foods is straight forward, just add your favourite vegetables, water and salt.

Social Media: We Are Storytellers

People love a human interest story, especially one they can interact with and relate to. By creating stories around our products we can access a younger generation, a generation which has become more conscious of the world around them. Climate change, social media, fashion, and healthy eating are all affecting the way young people live their lives.

Kilner® walks the line between the food-forward trends of the modern world and the traditional homestead aesthetic of the past. Jam-making and vegetable preserving meets kombucha and plant-based alternatives to dairy.

Kilner® Mayonnaise and Sauce Jar Set

Making homemade mayonnaise couldn't be easier with the Kilner® Mayonnaise and Sauce Jar Set! Simply fill the jar base with egg yolk, lemon juice, mustard salt and pepper, then place the mesh plunger and oil dish inside the jar and tighten with the screw band. Drizzle oil into the oil dish whilst moving the plunger up and down. After about 3 to 4 minutes the consistency will be ready to serve. Other sauces such as Veganaise, Aioli and salad dressings can also be created using this handy kitchen gadget.

Quality and Manufacturing

From the start of production to the finish, our experience enables us to select the best quality production techniques, as well as ensuring quality is to the highest standard possible.

Kilner® uses fully automated glass jars for a number of reasons:

- Even thickness of glass ensures there are no weak spots.
- Clarity of glass is clearer.
- We can design our own unique shapes and emboss glass with the Kilner® logo.

Kilner® uses high quality material for its products including:

- High quality stainless steel clips engineered to ensure the clip tension is 100% perfect, ensuring an ideal seal every time.
- Secure seal fitment.
- "A" Grade soda lime glass, the safest option to store food and drink.

Quality is very important to Kilner®:

- All Kilner® Glass Jars are batch tested at source to AQL level 2.
- An additional quality check is also undertaken at our UK warehouse.

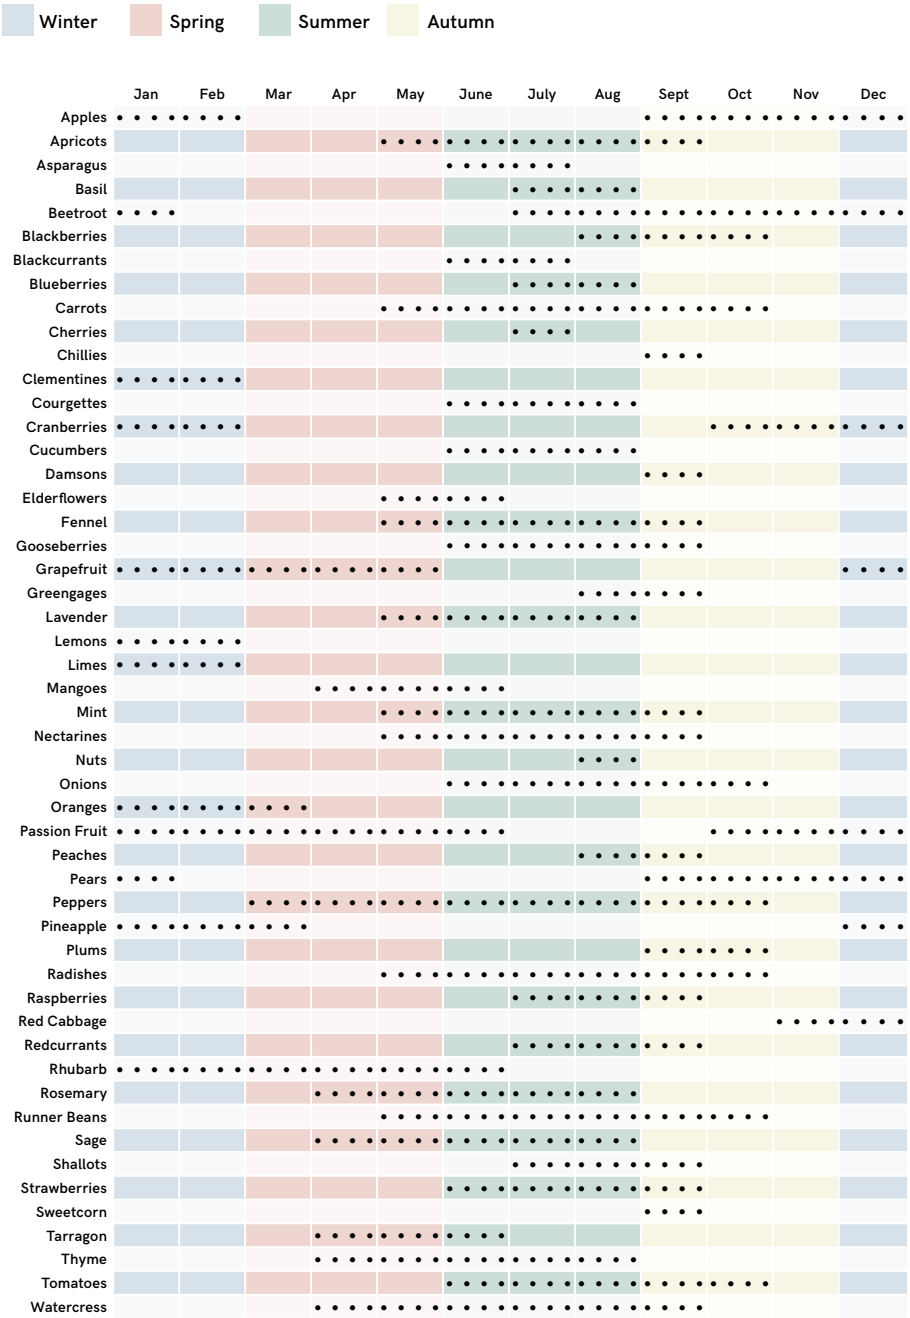

We recommend avoiding the use of low quality, inferior glass products, these can lead to injury and food waste. Don't risk your precious preserve by using low quality storage with ill fitting lids. Choose Kilner® as we only use quality food grade materials.

Kilner® have the knowledge and experience to develop and produce high quality glass jars that will last longer and keep your ingredients safe.

Glass is good for your food. It is made from pure, natural elements, so harmful chemicals or toxins do not leak into your food. Glass is also BPA free which means it's the healthier choice for storing, preserving or even transporting your food and drink.

Glass preserves your food, keeping it fresh. It locks in taste and aromas, is easy to clean and doesn't take on residual odours, tastes or stains from food and drink. Not only is it healthier, but also more economical, reusable and recyclable – friendlier on both our pockets and the environment.

Pectin and Acid Chart

When preserving, acid aids the process of extracting pectin from fruit. Pectin is essential to your mixture because it helps you reach the required setting point along with stopping the sugar from crystallizing. You can use this chart to guide you with your recipe ingredients. If you choose a fruit high in pectin you will need to add less commercial pectin to your overall mixture.
